### Stichting IDH

## Implementation of the Producers Support Center (CAP) in Balsas region – Maranhão State/Brazil

### Introduction

#### 1. Introduction

Stichting IDH (“IDH”) accelerates and up-scales sustainable trade by building impact-oriented coalitions of front running companies, civil society, governments, knowledge institutions and other stakeholders in several commodity sectors. We convene the interests, strengths and knowledge of public and private partners in sustainability commodity programs that aim to mainstream international and domestic commodity markets. We jointly formulate strategic intervention plans with public and private partners, and we co-invest with partners in activities that generate public goods.

On basis of these Terms of Reference (“ToR”), IDH aims to select a party **to implement and manage the Producers Support Centre (CAP – Centro de Atendimento ao Produtor) in the Balsas region state which will provide farmers in the region with technical assistance and support for environmental and land regularisation.** The center has been established in partnership with State Agency for Agricultural Research and Rural Extension of Maranhão State (AGERP) and office and attending the 12 municipalities of the Balsas region PCI Compact.

#### 2. Background

Since 2015, IDH has been working in Brazil on an innovative approach to promoting long-term sustainable land use. We connect rural producers, companies, governments, local communities, financiers and investors to establish collective governance models. These alliances create an environment for positive and reliable dialogue, aiming to solve complex issues through a common approach: economic and social development coupled with protection of forests. As a result, agricultural products are produced sustainably, small producers and local communities are included in socio-productive chains, and natural resources are conserved and protected.

We apply a territorial approach, which seeks to promote long-term sustainable management and development, with three central pillars: Produce, Protect (Conserve) and Include. Based on these pillars, we work on strategic fronts with companies, governments and producers on developing green growth plans, connecting companies, proposing financial solutions and supporting producers.

To support the regional model of PCI strategy to reach the goals related mainly to the sustainable agriculture, environmental and land tenure regularization, IDH intends to set up a Producers Support Center – CAP. #### **7. Scoring and weighting**

The assignment will be awarded to the Applicant with the most economically advantageous tender. The most economically advantageous tender is determined on the basis of the evaluation criteria of price and quality.

The evaluation criteria are compared and weighed according to the procedure below. This concerns a general outline of the scoring methodology and an explanation how the service provider can demonstrate compliance with the requirements.

### Step 1 - Criterion Quality

Evaluation scores will be awarded for each of the components. The evaluation committee will score each component unanimously.

The proposal will be assessed based on the following selection criteria:

Component	Criteria	Max. Grading
1	<b>Proposal overall</b>	5
2	<b>Design and Development process</b>	5
3	<b>Track record</b>	5

The evaluation committee will unanimously score each component by assigning scores from 1 to the maximum grading, with the maximum grading representing optimal performance on the component and 1 representing extremely poor performance on the respective component.

### Step 2 - Criterion price

A combined price in Euros (*including VAT and all other applicable taxes*) is to be presented. This is to be broken down by team member rate and hours.

The criterion of assessment is “the best price for the proposed level of quality” with a maximum grading of 5.

### *Step 3 - Weighting*

The final score will be weighted 75% on Quality and 25% on Price.

If scores of service providers are equal, priority will be based on the total scores that were given for the Criterion Quality. The assignment will be awarded to the service provider that has received the highest score for the Criterion Quality. If the evaluation of the Criterion Quality does not lead to a distinction, the score for the component “Proposal overall” will be decisive. If this does not lead to a distinction, the ranking will be determined by the drawing of lots.

### Award

Once IDH has decided to which Applicant it intends to award the assignment, a written notification thereof is sent to all Applicants participating in the tender procedure.

The Applicant is contracted via a letter of assignment, following IDH’s template (Annex 2).
